Mud Plant Service

The Mud Plant is capable of building new water-based mud, recycling used drilling/drill-in and completion fluids, handling used and waste drilling/drill-in and completion fluids.

The plant have a 2000m³ storing capacity of mud/ brine, load and offload point for transport vehicles and 6 pcs trailer truck 25 m³ tank capacity

Component of Mud Plant:

Description	Unit	Pcs of unit
Reserve tank, for max 2,1SG WBM 120m ³	pc	17
Mixing tank w agitators 20 m ³	pc	3
Mixing tank w agitator 13 m ³	pc	1
Technology tank w agitator 13 m ³	pc	2
Technology tank 13 m ³	pc	1
Clean brine tank 10 m ³	pc	1
Dirty brine tank 10 m ³	pc	1
Clean buffer tank 30 m ³	pc	7
Waste fluid tank w agitators 30 m ³	pc	5
Waste fluid buffer tank 30 m ³	pc	2
Waste fluid buffer tank 20 m ³	pc	2
Solid waste tank 22 m ³	pc	1
Solid waste tank 4 m ³	pc	1
Centr pump/wmotor Mission 55kW el.motor	pc	6
Centr pump/wmotor Mission 30kW el.motor	pc	2
Screw pump Netzsch	pc	2
Brine screw pump	pc	1
Brine centr. pump Johnson	pc	1
Mud hopper	pc	2
High ride mixer	pc	1
Shear mixer	pc	1
Shale shaker Swaco	pc	1
Centrifuge High Speed (HS)	pc	2
Floc unit	pc	1
DE filter unit (vessel volume 600litre, filter area 40m ²)	pc	1
Cartridge filter	pc	1
Mud Lab carbine	pc	1
Warehouse for chemicals 30x18m	pc	1
Social cabine	pc	2
Office cabine	pc	1
