Tubular Handling Services

Rotary tubular handling services provide handling tools and services to support drilling and completion operations at all stages of well construction. Offering an integrated package of total tubular services management, we provide tubular handling, preparation, inspection and wellsite installation services. With conventional equipment used for the installation of tubing and casing, we offer a suite of products and services for improving rig floor operations by reducing personnel exposure, increasing operational efficiency and improving safety. We offer computerized torque monitoring and testing services to ensure the integrity of tubular connection makeup.

CASING POWER TONGS:

Weatherford 16-25 models for 4 1/2"-13 3/8" OD casing

Westco 16-25 models for 4 1/2"-13 3/8" OD casing

HYDRAULIC POWER UNITS:

Weatherford LS 6912 with 88 HP Deutz engine

POWER TONGS:

Weatherford 5.5-15 model for 1.9" -5.5" OD Tubing Size

Weatherford 7.6-30 model for 2 3/8" -7" OD Tubing Size

TONG MONITORING SYSTEMS:

Weatherford JAM LV-2

ConTech Explorer II

BUCKING UNIT:

Weatherford BU CAM-F-13.375/37-H with EHPU and

Torque/Turn/Time controlled make-up system

ACCESSORIES:

350 Ton Slip Type Casing Elevator/Spiders 4 1/2"-13 3/8"

75 Ton YT/YC Slip type Tubing Elevators 2 3/8"- 5.5"

150 -250 Ton Side Door Elevators 4 1/2" - 13 3/8"

Single Joint Elevators 4.5"- 18 5/8"

Casing Slips 7" -13 3/8"

Casing Thread Protectors, Clamp-on type 4 1/2" -13 3/8"

Casing Circulating Heads 4 1/2" -13 3/8"

Dope Master Accu-Kote

Single Joint Compensator Weatherford SJC-42 model
