CTU4

Truck mounted Coiled Tubing Unit (Two Truck System)

GOES CT-IC-T50
Manufactured in 2019

CT REEL TRUCK:

MAN TGS 41.500 10x8 BB chassis

POWER PACK:

Coiled Tubing "Wet Kit" provided by the Truck Chassis PTO with distribution gearbox. Consist of two closed piston pumps (injector and reel supply), one open loop pressure compensated piston pump (system pump) and one low pressure gear pump (bypass cooling).

REEL:

Skid mounted, easy interchangeable
Capacity 5370m at 1.25" and 3505m at 1.5" coil

INJECTOR HEAD:

Coil Solution CSI 60K
Capacity 60.000lbs pulling and 30.000lbs snubbing
Gripper Block for tubing size of 3/4" OD trough 2 3/8"
Speed: 20 m/min @ 30.000 lbs.

WPCE:

Control and supply system for Quad Hydraulic BOP, two Strippers and one Back-up, 40 Gal capacity
2.50" ID 10K/H2S Hydraulic Quad BOP, 3"ID 10K/H2S Riser system

CT SUPPORT CRANE TRUCK:

MAN TGS 8x6 BB 420 HP Truck with PTO drive MKG HMK 350Ta3 model Boom Crane with remote control (load capacity of winch 5 t)

MONITORING SYSTEM:

GOES Data Acquisition System (DMS) and Medco TAS/FACT Design, Analysis and Modelling Systems
